The house military committee met to consider his proposal, less than 24 hours after he made it. But it was clear some elements in congress would seek a more drastic law than the President asked for.

Mr. Truman proposed that no major strike be allowed to occur until after an impartial board had studied the dispute and given the facts to the mubil.

Dr. Henry Hitt Crane, Detroit Methodist minister and chairman of the group, said that after hearing 700 pages of transcript of wage negotiations between the union and General Motors, the committee would begin executive sessions late Wednesday with a view to formulating recommendations for a set-tlement formula.

The very fact Senator Taft has started to make reservations to the general proposition of an international organization is plain evidence of his line of thinking. He is apparently hopeful of doing to the United Nations organization what was done to the League of Nations a quarter of a century ago.

It is, of course, his right and his duty as a senator to obey the dictates of his conscience. But by the same token it is the right and duty of his constituents to obey the dictates of their consciences.

The United Nations organization hasn't a chance if the United States refuses to show confidence in it. This wounded boy's battle isn't won yet. Ahead lie days, weeks, months in a hospital—fighting to recover what he gave up for you.

So before you start to celebrate again—before you treat yourself to a buying-spree—buy a Victory Bond for him.

Remember, today, rehabilitation and care of over 300,000 wounded are among America's gravest problems. And every step that speeds a man from battle

wounds to health is costly. A hospital ship costs \$4,500,000; a hospital plane \$110,000; supplies for a thousand bed hospital \$177,500.

We must—we will—take care of our own with America's Great Victory Loan. Think of the boy who's still fighting for health. You'll see why the most important Bonds you've ever bought are the Bonds you buy today. Put what your heart tells you into America's Great Victory Loan.
